March 2016

Experience

Professional Regulation Commission (PRC)**IT intern**

Baguio City, PH
May– July

- Developed a system to automatically release data for the Records Department. This system ensures smooth and easy access to records of each profession.
- I began my internship with welcoming clients and asking for feedback using the PRC'S Clients Relationship Management System (CRMS), with that I was also assigned in client handling in front desk earning a multi-tasking skill.
- I have already handled more than a hundred clients that made me develop my social and problem-solving skills.
- I had a dual task during my internship handling more tasks other than developing a system.
- During my free time I also helped my co-interns with their system, helping them with their frontend and backend problems.

Skills & Interests

Technical:

- Frontend Development: HTML, CSS and JS.
- Backend Development: PHP and SQL
- Frameworks: Bootstrap
